I, Rich Hobernicht, Director of Assessment and Taxation for Washington County, State of Oregon, hereby certify that the assessed valuation, tax levies, and taxes set forth in the tables herein contained are full, true and correct copies of the originals and of the whole thereof, as the same appears in my custody.

In Witness Whereof, I have hereunto affixed my signature at Hillsboro, Oregon, on the 7th day of October, 2016.

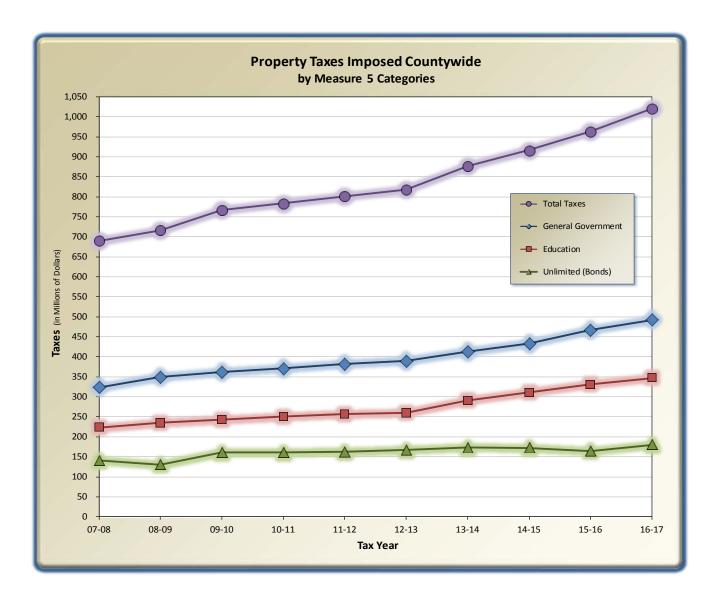

Rich Hobernicht, Director

Department of Assessment and Taxation

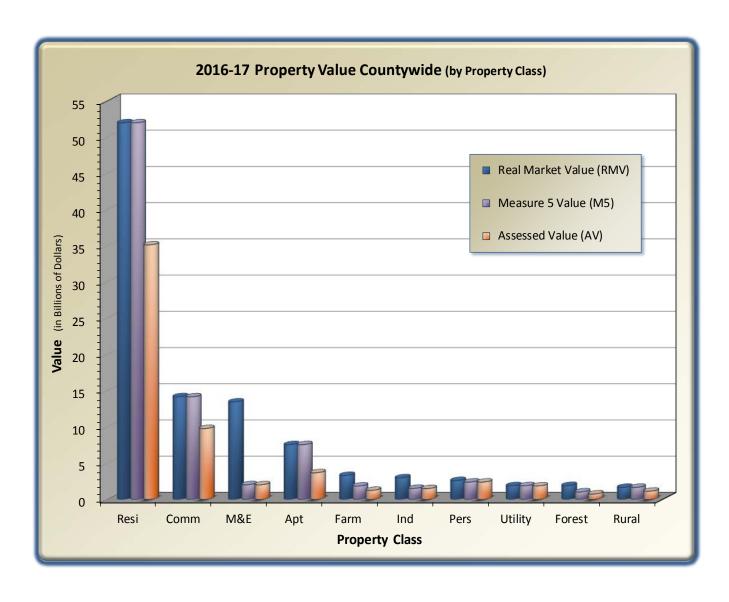

Tax Year	Property Taxes Levied	Tax Increase	Assessed Value	Value Increase	Tax Rate (per \$1,000)
16-17	\$1,020,651,805	6.0%	\$59,446,698,455	4.5%	17.17
15-16	\$962,850,377	5.1%	\$56,910,892,240	6.3%	16.92
14-15	\$915,946,763	4.5%	\$53,515,861,950	4.6%	17.12
13-14	\$876,876,619	7.3%	\$51,181,916,090	3.7%	17.13
12-13	\$817,381,673	2.1%	\$49,355,659,075	2.3%	16.56
11-12	\$800,942,462	2.3%	\$48,236,782,163	3.1%	16.60

08-09	\$715,850,155	3.7%	\$43,863,121,849	5.5%	16.32
07-08	\$690,046,737	15.2%	\$41,561,762,522	6.4%	16.60

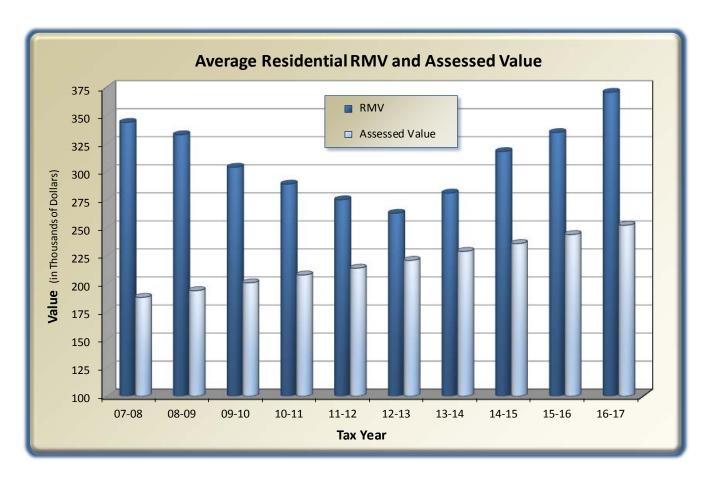

^{*} Prior to FY 08-09, the Average Tax Rate was computed by taking Total Taxes divided by Total Assessed Value minus Urban Renewal Excess, which can be can be found on Line 17 of the Washington County 4a. Beginning with FY 08-09, the Average Tax Rate was computed by taking Total Taxes divided by the Total Assessed Value on the Washington County 4a (Line 13 + Line 14). In FY 13-14, the Total Assessed Value on the 4a (Line 13 + Line 14) for the Taxing District of Washington County was slightly less than the total value within the County due to certain tax exemptions granted. The larger county value is now used to compute the Average Tax Rate.

Tax Year	General Government	Education	Unlimited (Bonds)	Total Taxes

07-08	\$343,670	\$187,557

Typical residential properties are used to calculate the averages for Real Market Value, and Assessed Value each year. These are improved residential properties with a living area greater than 100 sq. ft. that are in residential neighborhoods. This list excludes properties with partial construction, exempt property, code-split accounts, pro-rated accounts, property with special use value, rural property, tract property, plexes, and condominiums.

Total County Value

Property Type	Real Market Value	Measure 5 Value	Taxable Assessed Value
Real Property	\$96,849,041,527	\$81,603,666,947	\$55,083,566,168
Personal Property	\$2,604,364,115	\$2,387,833,935	\$2,387,833,931
Manufactured Structures	\$157,194,990	\$157,194,990	\$113,229,010
Utility	\$1,889,632,401	\$1,889,632,401	\$1,862,069,346
Total	\$101,500,233,033	\$86,038,328,273	\$59,446,698,455

- For complete definitions of "Real Market Value", "Measure 5 Value", and "Taxable Assessed Value", please see the Glossary.
- The Assessment Date is January 1, 2016.
- Not reduced by Urban Renewal Excess Value

Total Taxes

-------------------	--------------

Compression - Reduction in taxes required by the Measure 5 property tax rate limits approved in 1990. County assessors calculate compression as a dollar amount, but it can also be expressed as a tax rate. Compression is done on a property-by-property basis.

Measure 5 - Constitutional tax rate limitations passed by voters in November, 1990, which can be found at Article XI, Section 11b, of the Oregon Constitution. Measure 5 limited school taxes to \$15 per \$1,000 of assessed value and non-school taxes to \$10 per \$1,000 of assessed value starting in 1991-92. The school limit fell by \$2.50 per \$1,000 each year until it reached \$5 per \$1,000 in 1995-96. The non-school limit remains at \$10 per \$1,000. Levies to pay bond principal and interest for capital construction projects are outside the limitation. The Measure 5 rate limits still apply under the provisions of Measure 50, passed in 1997, but now apply to M5 value.

Assessed Value (AV)

(See Taxable Assessed Value)

Assessment Date

January 1 at 1:00 a.m. each year. The "as of" date that becomes the basis for valuation of property.

Changed Property Ratio (CPR)

The CPR is used to adjust the market value of exception property to the average level of assessment compared to the current market value for each property class. The ratio is determined by dividing the Average Maximum Assessed Value by the Average Real Market Value not including value from exceptions. This ratio is computed each year for eight basic property class groups on a Countywide basis.

Exceptions

Certain changes to a property that allow an increase in Maximum Assessed Value (MAV) of more than three percent. An exception occurs if:

- -- New property or new improvements to property exceeding \$10,000 in Market Value.
- -- The property is partitioned or subdivided.
- -- Omitted property is discovered.
- -- Rezoning occurs and the property is used consistently with rezoning.
- -- Property is disqualified from exemption, partial exemption, or special assessment.

Exemptions (Properties Exempt from Taxation)

Some properties are partially or wholly exempt from property taxation. There are three main categories of these exemptions:

- (1) Public Exemptions. Property owned by federal, state, or local governments (including counties, cities, towns, and school districts) is generally exempt from property taxation. This includes all public or corporate property used or intended for use for corporate purposes of local governments and all public or municipal corporations in the state. When such property is leased to a private party, the leased portion generally becomes taxable.
- (2) Social Welfare Exemptions. Assessed Value of properties owned by private organizations and used for educational, religious, or developmental purposes. These properties are exempt from property tax. The qualifying property classes include: fraternal organizations; literary and charitable; religions organizations; burial grounds; all other social welfare.
- (3) Business, Housing, and Miscellaneous Exemptions. These properties are partially or totally exempt from property taxation: Veteran's exemptions; historic property; enterprise zones; commercial facilities under construction; and others.

General On-Going Maintenance and Repair

The Maximum Assessed Value (MAV) of a property cannot be increased due to general on-going maintenance and repair defined as the repair or replacement of existing property due to normal wear/tear/deterioration. Examples of on-going maintenance and repair may include re-roofing, painting, replacement of floor or wall covering.

Maximum Assessed Value (MAV)

Maximum Assessed Value (MAV) is generally equal to the prior year Taxable Assessed Value times 103% or the prior year MAV, whichever is greater. MAV was initially established for 1997-98 as equal to 90% of the property's Real Market Value in 1995-96.

Maximum Specially Assessed Value (MSAV)

Maximum Specially Assessed Value (MSAV) applies only to the specially assessed portion of specially assessed property. For 1997-98, it was equal to 90% of the 1995-96 Specially Assessed Value. For subsequent years it was equal to its prior year Maximum Specially Assessed Value times 103%. Beginning with 2002 for farmland and 2004 for forestland, the MSAV is calculated as the prior year assessed value of the specially assessed portion times 103% or the prior year MSAV, whichever is greater.

Measure 5 (M5)

Oregon Ballot Measure 5, passed in 1990, established constitutional limits on property taxes. After a period of implementation, total property taxes levied on any property were limited to a maximum of \$5 per thousand of Real Market Value for all education levies, and \$10 per thousand of Real Market Value for general government. Property taxes beyond these limits are not levied and are said to be "lost to compression."

Measure 5 Value (M5 Value)

Measure 5 value is the value used to calculate the Measure 5 limits. This value differs from Real Market Value for property that is assessed under a Special Assessment program (such as Farm and Forest property, and SIP). For non-specially assessed property, Measure 5 Value is equal to Real Market Value (RMV). For specially assessed property, Measure 5 Value is the sum of the Real Market Value of the market portion of the account plus the Specially Assessed Value (SAV) of the specially assessed portion of the account.

Measure 50

The voters of Oregon passed an initiative Petition in November 1996 called Ballot Measure 47. This change to the Oregon Constitution provided for a "cut and cap" of property tax assessed values in the State. The cut was a roll back of the value of each property to its 1995 assessed value minus ten percent. The value cap restricted annual increases in assessed value to three percent unless certain changes to the property were made, such as new construction.

The 1997 Legislature found parts of Measure 47 to be unworkable and offered a substitute. Measure 50 provided for the same outcomes as well as additional provisions to enable a smoother implementation. The voters approved Measure 50 as a substitute for Measure 47 in May 1997. The changes in the property tax system were implemented in the 1997/98 tax year. These changes are found under Article XI, Section 11 in the Oregon Constitution.

Minor Construction

Improvements to real property, the Real Market Value (RMV) of which does not exceed \$10,000 in any assessment year or \$25,000 for cumulative additions made over five assessment years. The assessor may increase the Real Market Value (RMV) of the property to reflect minor construction; however the Maximum Assessed Value (MAV) may not be increased to reflect minor construction.

Net Assessed Value

(Same as "Value to Compute the Rates" on form 4a line 17) Net Assessed Value is used to calculate district tax rates for dollar levies. It is total assessed value plus nonprofit housing value and state fish and wildlife value minus urban renewal excess value used.

Real Market Value (RMV)

Real Market Value is the value a property would sell for in a competitive market if the property were used in its highest and best use. RMV is the amount in cash that could reasonably be expected to be paid by an informed buyer to an informed seller, each acting without compulsion in an arm's length transaction occurring as of the assessment date for the tax year.

For purposes of this Summary Book, RMV is reported only for assessable (taxable) property. Exempt RMV is not included. For most properties, the M5 value equals the RMV.

Specially Assessed Value (SAV)

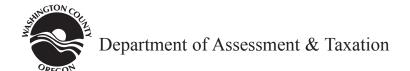

Specially Assessed Value (SAV) applies only to the specially assessed portion of a property. It is the value, specially assessed according to statute, of the specially assessed portion of the account only. Specially assessed property is assessed at less than its full value. Farm use special assessments apply to land used primarily to make a profit in farming. Forestland special assessments apply to land used for growing timber.

Taxable Assessed Value (TAV)

Taxable Assessed Value (TAV) is the value to which the billing rates are applied to calculate taxes. For most properties, Taxable Assessed Value is the lesser of Maximum Assessed Value (MAV) or Measure 5 Value (M5). For property that is partially or wholly specially assessed, Taxable Assessed Value is the lesser of: (A) the lesser of MSAV or SAV by land class of the specially assessed portion, plus the lesser of RMV or MAV of the market portion; or (B) account RMV.

Value Subject to Tax (aka Taxable Value; aka Assessable Value)

Assessed value used for tax computation. It may be the Maximum Specially Assessed Value, as in the case of Specially Assessed property, or the Assessed Value for other property.
