

Exclusion Guidelines for Schools and Child Care Settings Clackamas, Multnomah and Washington Counties*

Does the student have any of the following? Diarrea: At least 3 loose stools in 24 hours – OR – sudden onset of loose stools. Vomiting: At least one episode that is unexplained in the past 24 hours. Fever: A body temperature of at least 100.4 New skin rash, sores or wounds: Not previously diagnosed by a health care provider

YES

For Diarrhea or Vomiting

Stay at Home --

Until symptoms are gone for 24 hours;

DO NOT handle any shared food until 72 hours after symptoms are gone.

For Fever

Stay at Home --

Until fever is below 100.4 for 24 hours **WITHOUT** the use of fever-reducing drugs (for example, Tylenol, acetaminophen, Advil, Motrin, ibuprofen)

For Skin Rash, Sores or Wounds:

Stay at Home -

- If rash is increasing in size, or if new sores or wounds are developing day-today, – OR –
- If rash, sores or wounds are draining and cannot be completely covered with a bandage.

No contact sports until sores or wounds are healed or no longer draining

When to report to local health department

- Report any suspected outbreak or reportable disease immediately. A suspect outbreak means a
 higher than expected number of students or staff sick with similar symptoms around the same
 time.
- Report any suspected outbreak or reportable disease to the school nurse. If a school nurse is not available, contact the County Health Department.
- See Oregon Disease Reporting Guidelines Online for a list of diseases and reporting timelines. http://public.health.oregon.gov/diseasesconditions/communicabledisease/reportingcommunicabledisease/
