Point in Time Count

# What is the Point in Time Count?

The Point in Time Count (PIT) is an annual HUD required count of homeless individuals in our community:

- Is a snapshot as of 1/23/2025
- HUD Requires a Shelter count every year and Street count every 2 years
- Street Count conducted this year was regional and project managed by PSU
  - Both our Shelter and Street Count data was deduplicated at a regional level
- Notes about the Street Count:
  - Volunteers collect survey information, but participation in the survey is voluntary and often we have incomplete information
  - We attempt to match each person in the Street Count with an HMIS record to ensure de-duplication with our Shelter count
- Point in Time Count is used nationally to understand and compare homelessness across the nation and included in reports to Congress that could impact Federal spending on homelessness
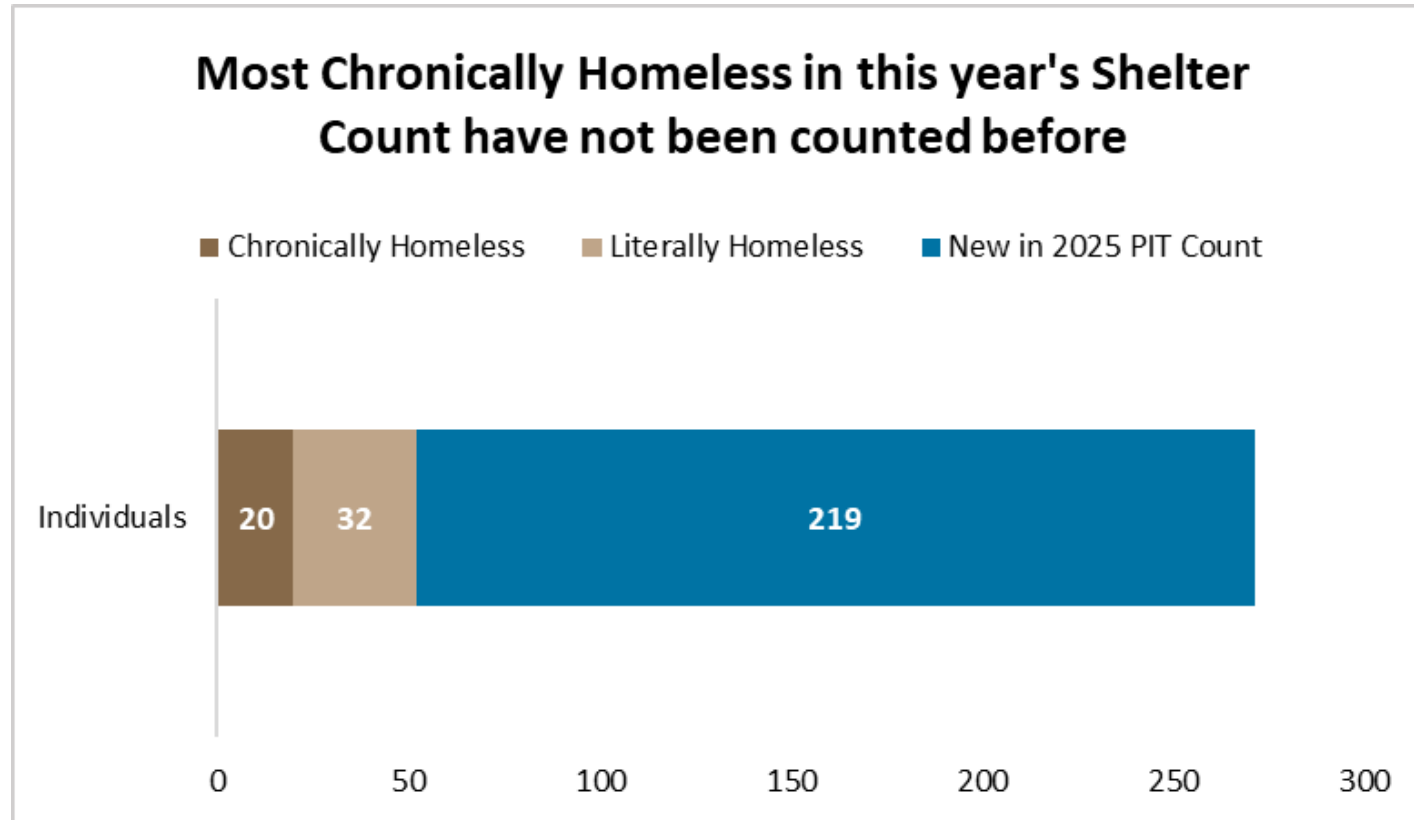

Homelessness is Rising in our County

Point in Time Count Year over Year

Legend: Total Count, Total Sheltered, Total Unsheltered, Total Chronically Homeless

Total Count: 618 (2020) → 940 (2025)
Total Sheltered: 311 (2020) → 701 (2025)
Total Unsheltered: → 239 (2025)
Total Chronically Homeless: 149 (2020) → 387 (2025)

Years: 2020, 2021, 2022, 2023, 2024, 2025

This is Consistent with the First Time Homeless Metric on our SPMs

5.2 Person's Entering ES, TH, and PH programs with no prior enrollments

■ Experiencing Homelessness for the First Time   ■ Prior Experience with Homelessness

Year	Experiencing Homelessness for the First Time	Prior Experience with Homelessness
2020	1279	319
2021	1389	321
2022	2539	506
2023	2937	710
2024	2170	918

We are Making Progress Housing People

Most Chronically Homeless in this year's Shelter Count have not been counted before

Legend: ■ Chronically Homeless ■ Literally Homeless ■ New in 2025 PIT Count

Individuals: 20 | 32 | 219

We are Making Progress Housing People

Housing Inventory Chart

What is the Housing Inventory Chart?

The Housing Inventory Chart (HIC) is a HUD report that captures a point in time snapshot of the capacity and utilization of all shelter and housing programs serving homeless individuals in our CoC as of the night of the Point in Time (PIT) count:

- The HIC does not include Prevention, Coordinated Entry, Street Outreach, or other Services Only programs
- Utilization for Housing Programs is based on the households housed on the night of the PIT and does not include those enrolled but not yet housed
- HUD requires that all RRH units and beds are calculated based on those housed on the night of the PIT, always resulting in 100% utilization

Overview of Housing Inventory

**Housing Inventory Chart (HIC) as of 1/23/2025**

- Utilization increased to 90% in 2025, compared to 77% in 2024

- 3,234 shelter & housing units in 2025, up from 2,844 in 2024

- Program count grew steadily from 76 (2023) to 86 (2024) to 87 (2025)

Other Data Highlights

Housing Placements & Capacity

Capacity by program type with the number of households housed as of 6/30/25

Supportive Housing — 1,854 HHs Housed — 2,158

Rapid Re-Housing — 505 HHs Housed — 658

Other Permanent Housing — 139 — 173

Thank you

Acronyms

Acronym	Full Name	Description
PIT	Point in Time Count	Annual snapshot count of homelessness in our County, always occurring on a single night in the last 10 days of January.
HIC	Housing Inventory Chart	Annual report of system capacity and utilization
HUD	Housing & Urban Development	Federal department responsible for Homeless Services
SHS	Supportive Housing Services	The Metro bond that was passed in May 2020 that funds the majority of our homeless services.
HMIS	Homeless Management Information System	Database where all our homeless services
CH	Chronically Homeless	People meeting the HUD definition of chronic homeless. These are people with a disability who have been homeless for over 1 year or meet other long-term risk factors

Department of Housing Services
