

## EXEMPT AGRICULTURAL BUILDING OR EQUINE FACILITY PLACEMENT PERMIT APPLICATION

Certain agricultural buildings, structures and equine facilities are exempt from the State of Oregon Structural Specialty Code. **FARM AGRICULTURAL BUILDING:** is a structure located on a farm and used in the operation of such farm for all the uses listed above and for the storage, maintenance or repair of farm machinery and equipment.

### **FARM AGRICULTURAL BUILDING DOES NOT INCLUDE:**

- A dwelling;

I understand this agricultural building can be used only for farm use. I understand that any change of use including, but not limited to the use of the building for a dwelling, personal storage, storage of vehicles other than farm vehicles (i.e. boats, cars, RVs etc.) and home occupations will require a building permit and nullify the agricultural exemption.

If this is an equine facility, I understand the building can be used only for stabling or training equines, riding lessons and training clinics and can have no more than ten persons in the building at the same time on a consistent basis. A person is *any* individual including, but not limited to the owner, family members, employees, members of the public, etc. I understand if more than ten persons are present in the building at the same time on a consistent basis, the agricultural exemption is void and building permits will be required.
