

# ELWERT-KRUGER INTERSECTION PROJECT

## Sherwood School District Participation

In November 2016, Sherwood voters approved a levy to allow the Sherwood School District to construct a new high school west of SW Elwert Road.

As part of the high school construction, the District has land use required roadway improvements on SW Elwert Road, SW Kruger Road and within the Hwy 99/SW Elwert Rd intersection. The District requested that their required roadway improvements be added to the County's Elwert-Kruger Intersection Project and that the District will reimburse the County for related design and construction costs.

During April 2018 the District and County Board of Commissioners approved an agreement to combine the roadway project work together. Costs for the District roadway work design and construction will be reimbursed to the County.
