Bystander Intervention Training

Description

When disrespect and harassment happens at work, people are almost always around and if they aren't around, they can be quickly summoned to show up. At Right To Be (formerly Hollaback!) our goal is to reduce instances of workplace disrespect (which can lead to harassment) by giving employees the tools they need to disrupt those perpetrating it. We will equip you with tools to be an effective bystander in the midst of workplace disrespect by using our proven 5Ds of bystander intervention methodology - distract, delegate, document, delay, and direct. 98% of employees leave our training committed to intervene next time they witness disrespect at work.
