

Oregon Public Health Advisory Board

Overview

5/9/2023

Developing a public health system vision and funding strategies – proposed approach

In January, PHAB members identified a need to develop a vision for the public health system to inform future priorities and funding.

Proposed approach	
February - May	Ground PHAB members in current public health modernization investments. Hear from LPHAs, CBOs, Tribes and investments in community-led data initiatives
Summer	PHAB retreat or other facilitated opportunities to begin planning discussions
Throughout 2023	Ongoing development of public health system vision with partners, and planning for future funding

Developing a public health system vision and funding strategies

- What input, concerns or suggestions do members have about this timeline and process?
- In what ways can PHAB prepare for visioning and planning this year?
- In what ways can PHAB's other work, including the work of its subcommittees, be incorporated into or inform public health system visioning?
- Who should participate in the public health system visioning process?

Public Health Advisory Board (PHAB)

About the Public Health Division

Leadership Team

Oregon's Public Health Advisory Board (PHAB) serves as an advisory body to the Oregon Health Authority. The PHAB advises the Oregon Health Authority on policy matters related to public health programs, provides a review of statewide public health issues, and participates in public health policy development.

PHAB Grounding

- The Public Health Advisory Board (PHAB) is established by ORS 431.122 for the purpose of advising and making recommendations to the Oregon Health Authority (OHA) and the Oregon Health Policy Board (OHPB).

Membership highlights

- Fourteen members appointed by the Governor including but not limited to the following
- A local public health administrator who supervises public health programs and public health activities
 - Benton, Clackamas, Deschutes, Jackson, Lane, Marion, Multnomah or Washington County;
 - Coos, Douglas, Josephine, Klamath, Linn, Polk, Umatilla or Yamhill County;
 - Clatsop, Columbia, Crook, Curry, Hood River, Jefferson, Lincoln, Tillamook, Union or Wasco County;
 - Baker, Gilliam, Grant, Harney, Lake, Malheur, Morrow, Sherman, Wallowa or Wheeler County;
- A local health officer who is not a local public health administrator;
- An individual who represents the Conference of Local Health Officials created under ORS 431.330

CLHO & PHAO Grounding

- “The [Conference of Local Health Officials](#) exists in Oregon Revised Statutes ([ORS 431.330](#)) to provide recommendations on foundational capabilities and modernization to the Oregon Health Authority.”
- “The Conference of Local Health Officials has [three caucuses](#) that each have a seat on the Conference Board of Directors. The caucuses serve to represent the diverse public health workforce in Oregon.”
- The Conference of Local Health Officials [By-Laws](#) last revision was 10-15-15 and may not fully align with current statutes (ORS 431.413, OAR 333-014-0550, ORS 431.415, ORS 431.447, ORS 431.418, ORS 431.131, ORS 431.141)

OHPB & OHA Definition of Health Equity

PHAO Questions

Question 1) Should the OHPB definition of health equity be updated to include rurality and/or geography?

Question 2) Should the Health Equity Review Policy & Procedure Workgroup work with the OHPB Health Equity Committee to suggest definition changes to the OHPB?

Overview

- Adopted by the Oregon Health Policy Board (OHPB) and OHA
- PHAB uses the OHPB definition

Observation

- Rurality and/or geography **not** expressly included

Opportunity

- Engage with the OHPB Health Equity Committee (HEC) to collaborate and recommend changes to OHPB

Definition of health equity

Oregon will have established a health system that creates health equity when all people can reach their full health potential and well-being and are not disadvantaged by their race, ethnicity, language, disability, gender, gender identity, sexual orientation, social class, intersections among these communities or identities, or other socially determined circumstances.

Achieving health equity requires the ongoing collaboration of all regions and sectors of the state, including tribal governments to address:

- The equitable distribution or redistribution of resources and power; and
- Recognizing, reconciling and rectifying historical and contemporary injustices.

Values related to public health data modernization

Rose introduced the PHAB handout called “Defining Values and Working Definitions for Strategic Data Plan Discussion”.

Rose asked the subcommittee to focus on defining values for:

- Data justice
- Data equity
- Community engagement and community roles in data creation and interpretation
